

Doncaster Rovers gatherings Monday 16th March through Sunday 29th March

Rovers understand many of you would be anxious about some of your children's sporting activities, which is completely understandable.

With the ongoing uncertainty surrounding the current public health situation, the Club has decided this evening to suspend all U5 through U16 training, all club events, social soccer groups and friendly games until further notice. This decision means our upcoming coaches and referee courses will be postponed, and our club fun day we were about to announce will also be postponed.

Seniors are required to continue training/matches and should, at a minimum follow the advice of Football Victoria – latest information can be [found via this link](#), which has also been linked on our facebook page. Please note this information includes advice that only 'necessary participants' are allowed in person at senior matches. Our facebook page will be updated regularly through the kick-off match this Friday evening.

As a Club, our primary concern is the safety of players, coaches, families and volunteers. We encourage you to discuss the situation with your families based on the facts, we aim to provide consistent messaging for our young people navigating these challenging times. You may find the following resource helpful in discussions: https://schooltv.me/wellbeing_news/special-report-coronavirus

Please be reassured that at this time we have no diagnosed cases of the virus at the Club.

As a Club, we will be meeting through this period to continually review updates from the Victorian Dept of Health and Football Victoria. We'll provide an update on March 30th to this advice.
